

# The GazzettE, Katherine In The Trunk (wersja ang)

Don't run away on your own anymore  
You just have to keep depending on me when you're with me  
Don't leave me alone anymore  
Is it just that I want to depend on you?  
Don't run away on your own anymore  
I want you to be by my side at least when I want to cry  
I'm not alone anymore, right?  
Because I can forgive anything when I'm with you  
The warm wind is making the candle sway  
When the fire disappears I want to disappear too  
I pick you up so as to hide my anger  
You lick away my tears  
Baby, my love... I don't need something that's only physical, like words  
My baby,... I love you Katherine  
If you're there, that's all I need  
Baby, my love... It's okay You're a lot like me  
My baby... I need you Katherine  
Please only be mine  
Only the luke-warm wind and camel ease my loneliness  
Only blue eyed Katherine eases my loneliness  
Don't run away on your own anymore  
Do you hate me now?  
Why do you look up at me  
And cry with such a sad face?  
The warm wind is blows the candle out  
The fire went out and you stopped crying  
The small body shivering weakly  
Only came up to me and slowly collapsed  
Baby, my love It's okay Because you were able to meet me  
Baby, my love You must be tired Tonight, on my lap  
Good night baby I love you Katherine I caress your still warm cheek  
Good night baby I won't forget you I'm glad that your end was in front of me  
Inside the trunk is blue eyed Katherine  
The car horns blow But there was no hesitation  
Katherine was very like me and alone  
Now I will...
