

# The Goo Goo Dolls, Become

There's so much more about you that you never let them see  
You turn away  
But not to me  
And I know how they tried to take you  
Held you up and meant to break you down  
But you can't be

For so long I tried to reach you  
I know I'm almost there  
I'm close enough for you to see

You've been hiding in the shadows  
Have you forgotten how we used to dream  
Let me remind you  
The light doesn't blind you at all  
It just helps you see  
Can you see

Yeah you have become  
Yeah you have become beautiful

And I can't be the stranger  
That's been sleeping in your bed just  
Turn around and come to me  
I feel all the pain inside  
And everything you been denied you feel  
It's all you feel

You've been hiding in the shadows  
Have you forgotten how we used to dream  
Let me remind you  
The light doesn't blind you at all  
It helps you see  
Can you see

Yeah you have become  
Yeah you have become beautiful  
Yeah you have become  
Yeah you have become beautiful

Brush back your hair and look around you  
Feeling like the truth has found you here  
You're here with me  
Let love become the mirror  
With no fear where you're from  
You have become beautiful
