

The Goo Goo Dolls, No Way Out

Every time I walk you down by Delaware park
You'd only hold my hand when its after dark
All the places that I go and all the things that we have seen
It makes me wanna scream

There's no way out

Every time I come a knockin' at your door
You tell me turn away, pal you're to poor
I ain't a rich boy, of course I know that
All the places that i go are just cheap cheap cheap

There's no way out

Every time I waited for you in the rain
My heart says our love is some kind of god damned pain
I stand around and i think it's gonna work
But won't you look at me, what am I a jerk... no!

There's no way out
