

# The Goo Goo Dolls, Real

You read the news  
Turns you inside out  
And everybody feels  
The same as you  
Uncertain times  
The uncertain rules apply  
Caught in the blind spot  
Of mirrored love

Can you feel  
Real like you are?  
Can you feel alive?  
The way I feel your light  
And the biggest chance  
That we can take  
Is open arms and wide awake  
Hold me now  
So we can feel alive  
Tonight

I need  
To feel you there  
I want to know  
Where i belong  
And I felt the sting  
The sting of corrosion  
I need a safe place  
To close my eyes

Can you feel  
Real like you are?  
Can you feel alive?  
The way I feel your light  
And the biggest chance  
That we can take  
Is open arms and wide awake  
Hold me now  
So we can feel alive

Oh, you were so lost  
And it was so much more  
Than you could bear  
And i was caught in my defeat  
You're alone and incomplete  
Will this sound  
Ever break down the walls

Can you feel  
Real like you are?  
Can you feel alive?  
The way I feel your light  
And the biggest chance  
That we can take  
Is open arms and wide awake  
Hold me now  
So we can feel alive  
So I can feel alive  
Tonight
