

The Goo Goo Dolls, Road To Salinas

Being afraid can be o.k. if you're willing to let things go
Take the the time and try to find and learn what you don't know
I dont know why I got behind the wheel
Sun's in the sky and i was...

On the road to Salinas
Down the road I thought could free us
Ordinary dreams would go
But I would always get back home

Take the time and try to find the boy inside my brain
Saw him way out on a limb and he was trying to get away
I don't know why I feel the way I feel
Sun's in the sky and I was...

On the road to Salinas
Down the road I thought could free us
Ordinary dreams would go
But I would always get back home

See myself in someone else and I just don't know why
When I lay my head to sleep I lay awake and cry
I dont know why I got behind the wheel
Sun's in the sky and i was...

On the road to Salinas
Down the road I thought could free us
Ordinary dreams would go
But I would always get back home
