

# The Gutter Twins, All Misery/Flowers

Would you leave me alone, my sweet Simone  
If I lay on my back down below on the track  
And remember a night, how I'd wade in the water  
You were counting the stars  
And starting me over  
They'd shine, your eyes  
Gonna make me rain gonna make me rise  
When I'm gone baby don't you forget it  
I did all I did just to get through to Heaven  
Got no mother  
She can't find me  
Got no father  
He done blind me  
Little girls might twitch at the way I itch  
But when I burn  
It's a son of a bitch  
Hold on hold on  
Hold on, all misery gone  
Make me shake me bleed all over  
Going down to drown in deep black water  
Let's ride suicide  
Say what you wanna but your neighbor don't lie  
Gonna lay me down baby on a bed of hot thistle  
Gonna die when I drown just a heartbeat away  
With those lies in my eyes  
Put you down in the river till you testify  
My mother she don't know me  
And my father he can't own me  
Little girls might twitch at the way I itch  
But the way I burn is a son of a bitch  
Make me shake me deep black water  
Gonna run through my veins  
Gonna make it rain  
Baby I'm gone so don't you forget it  
I did all I did just to get through to Heaven  
Hold on Hold on
