

The Gutter Twins, I Was In Love With You

I was in Love with you
I was in Love with you
Your distant eyes-
Insincere smile-
And hollow refrain-
Yer blues
I was in Love with you
I was in Love with you
You say you might-
Come by my window-
The car's parked outside-
Where are you?
True Love
True Love
True Love
All night-
You're letting it go-
Where did it go?
Where did it go?
I was in Love with you
I was in Love with you
It's Ladies Choice
Bring on the boys
The car's parked outside
Waiting-
Waiting- On you
Where did it go?
