

The Hives, I Can't Just Give It To You

I had a life
I live too well
I had a price on my head and you, you wanted to sell

All that I was
All that I had
If you had what I had then surely, you'd be glad

But I only wanted you to know...

I had some friends
The had friends too
They in turn had some friends and these friends, sadly, they knew you

They came along
My heart came to stop
But even so it didn't help you didn't, give you a dial

'Cause I only wanted you to know...that I can't give it to you
No, I can't give it to you

Now you have my things
To that i agree
But sadly my things, they wont get you me

But I only wanted you to know...I can't give it to you

That I can't give it to you
