

The Hollies, I've Got A Way Of My Own

Everything 'round them is spinning and turnin'
But they can't understand
People around me just never stop learnin'
About the things that I've planned
I've got a way, way of my own

Just look around them. They better start thinkin'
People will lend a hand
They better watch it or else they'll start sinkin'
With their heads in the sand
I've got a way, way of my own

Come back, when you've time for the world
You must think they'd don't need anyone, no no
Come back, when you've time for the world
They might find what they're lookin' for
They might find what they're lookin' for
Ahh-ahh-ahh-ahh
Ahh-ahh-ahh-ahh

break

I can't believe that the reason
Tey're giving will entice me to go
Why they deny me the right to start livin'
I'll just never know
I've got a way, way of my own

Come back, when you've time for the world
They must think they'd don't need anyone, no no
Come back, when you've time for the world
They might find what they're lookin' for
They might find what they're lookin' for
They might find what they're lookin' for
They might find what they're lookin' for
They might find what they're lookin' for
They might find what they're lookin' for
