

The Hollies, Long Dark Road

(Hicks / Lynch)

It's over, well over
in my mind and in my heart
It's over, well over
but then again it didn't have a good start

You'd tell me, try to sell me
it could have been all I asked
It's over, well over
It's there and flows away
A distant past

Now it's a long dark road
Yes, a long dark road
And you know I loved you
Yes, you know I loved you

chorus

It's over, well over
and we can't revive what's past
It's gone now, moved on now
but then again it didn't have a chance to last
No, no, no, a chance to last

chorus
