

The Hollies, Love Makes The World Go Round

(Clarke / Sylvester)

Love makes the world go round and around
Love makes the world go round and around
Love makes you feel three feet off the ground
Love makes the world go round

You should know it's happened before
You should have known what was in store
You should know not to do it encore
You should have known before

You did it your way it never worked out
Mr Right turned out Mr Wrong
You won't change your ways because you believe
In love is where you belong

You did it your way it never worked out
Mr Right turned out Mr Wrong
You won't change your ways because you believe
In love is where you belong

Can't you see, love's thrown out of the door
Can't you see, no-one loves anymore
Can't you see, my world's on the floor
Without love can the world go round
And around, and around, and around, and around
Without love, without love, can the world go round, yeah
