

# The Hollies, Water On The Brain

(Hicks / Clarke / Nash)

I've just come in from out of the rain  
It's wet outside the water runs down a drain  
I go to bed 'cause my head's full of pain

And drip drip it's driving me wild  
Drip drip it's driving me wild

Outside the window there's a pipe wearing thin  
It lets the water do a dance on a tin  
I try to sleep but it's making a din

And drip drip it's driving me wild  
Drip drip it's driving me wild

Water on the brain water on the brain  
Water on the brain water on the brain

Drip drip it's driving me wild  
Drip drip it's driving me wild

I toss and turn and my patience is weak  
Go to the bathroom door and I take a peak yeah  
The bath tap has started a leak

And drip drip it's driving me wild  
Drip drip it's driving me wild  
Drip drip it's driving me wild  
Drip drip it's driving me wild
