

# The Hoosiers, Goodbye Mr A

There's a hole in your logic  
You who know all the answers, oh oh oh oh  
You claim science ain't magic  
And expect me to buy it

Goodbye Mr A  
You promised you would love us  
But you knew too much  
Goodbye Mr A  
You had all the answers  
But no human touch  
If life is subtraction  
Your number is up  
Your love is a fraction  
It's not adding up  
Oh oh oh oh  
Oh oh oh oh  
Oh oh oh oh oh oh oh

So busy showing me where I'm wrong  
You forgot to switch your feelings on, oh oh oh oh  
So so superior, are you not?  
You'd love a little bit but you forgot

Goodbye Mr A  
You promised you would love us  
But you knew too much  
Goodbye Mr A  
You had all the answers  
But no human touch  
If life is subtraction  
Your number is up  
Your love is a fraction  
It's not adding up  
Oh oh oh oh  
Oh oh oh oh  
Oh oh oh oh oh oh oh

Goodbye Mr A  
Goodbye Mr A

Goodbye Mr A  
The world was full of wonder  
'Til you opened my eyes  
Goodbye Mr A  
Wish you hadn't blown my mind  
And killed the surprise  
Goodbye Mr A  
You promised you would love us  
But you knew too much  
Goodbye Mr A  
You had all the answers  
But no human touch  
If life is subtraction  
Your number is up  
Your love is a fraction  
It's not adding up  
Oh oh oh oh  
Oh oh oh oh  
Oh oh oh oh oh oh oh  
Oh oh oh oh  
Oh oh oh oh  
Oh oh oh oh oh oh oh
