

The Horrors, Sheena Is A Parasite

Sheena is a champion of self-reliance
As soon as she needs it
She knows just where the knife is.
Her fingers aren't so fast anymore,
It's been 29 years since she came to these shores

Sheena is a Parasite (x4)

Send her back to the sea they cried,
But Sheena spat bile til they let her lie.
She claims she's working for the Lord,
But you know what she's looking for.

Sheena is a Parasite (x4)

Sheena's ambition sneers at your routine,
And behind that glass she sits, cold.
If Sheena was buried no one would care,
She hates everyone she knows, no one

Sheena is a Parasite (x4)
Send her back across the sea,
Back across the sea.
