

The Innocence Mission, I Never Knew You From

What a time it was
Was befriended and was a friend
For the longest while
You were here
And I never knew you from the sun

Snow is on the ground
This is not my landscape now
Where I find myself
Without you
Oh I never knew you from the sun

Oh I had a friend
I had a friend I loved
Now I walk for miles
Into dark forests of piano sounds
I'm lost

Deep into my sleeve
Deep in my sleeves
Pockets start where I always reach
You are there
Oh I never knew you from the sun

Never, never knew you from the sun
