

# The (International) Noise Conspiracy, A New Morning

Goddamn lets hit it in the weak spot  
Everybody knows, that we all had enough  
Smell the scent of gasoline fumes cause we're not victims  
and we know what to do

Right now a systematic shutdown  
Of new world orders and restructuring plans  
Hold on tight cause here comes the latest craze  
I got news baby, and this is what I say:

Hey! A new morning - the weather changing!

Goddamn let's built a new movement  
Dead time pacifies, so lets do it  
This time all these slogans will come alive  
We're not gonna be bored this time

Right now a systematic shutdown  
Of neoliberals and assorted clown  
Strike a match and baby clench your fist  
Here come's a party that we don't wanna miss

Hey! Independence - we're playing a little game  
Hey! Independence - we got it on the way
