

# The (International) Noise Conspiracy, A Small De

I've got a problem  
how to spend my time  
so obligated to nothing for so long  
nothing's really on my mind

Gotta make the connections  
force of habit or habit enforced, yea  
when I get, you'll know I get it  
I'll know just what I want

All we ever wanted was just everything  
All we ever needed was just everyone  
this is a small demand, it's a small demand  
this is a small demand, it's a small demand

All we ever wanted was just everything  
All we ever needed was just everyone  
this is a small demand, it's a small demand  
this is a small demand, it's a small demand  
hey baby I can't believe  
that we are grateful for the shit we receive

I've got a problem  
a matter of erection  
a question of needing the real things  
or just a reality of me

I lose control of motion  
which hunger are you trying to feed?  
cause baby, what you want  
isn't always what you need

All we ever wanted was just everything  
All we ever needed was just everyone  
this is a small demand, it's a small demand  
this is a small demand, it's a small demand

All we ever wanted was just everything  
All we ever needed was just everyone  
this is a small demand, it's a small demand  
this is a small demand, it's a small demand  
yea baby I can't believe  
that we're grateful for the shit we receive

All we ever wanted was just everything  
All we ever needed was just everyone  
this is a small demand, it's a small demand  
this is a small demand, it's a small demand

All we ever wanted was just everything  
All we ever needed was just everyone  
this is a small demand, it's a small demand  
this is a small demand, it's a small demand  
yea baby I can't believe  
that we are grateful for the shit we receive
