## The Jacksons, Working Day And Night

Ooh my honey You got me workin' day and night Ooh my sugar You got me workin' day and night

Scratch my shoulder It's aching, make it feel alright When this is over Lovin' you will be so right

I often wonder if lovin' you Will be tonight But what is love girl If I'm always out of sight (ooh)

(That's why) You got me workin' day and night And I'll be workin' From sun up to midnight

You got me workin' workin' day and night You got me workin' workin' day and night You got me workin' workin' day and night You got me workin' workin' day and night

You say that workin' Is what a man's supposed to do But I say it ain't right If I can't give sweet love to you (Ah)

I'm tired of thinkin' Of what my life's supposed to be (well) Soon enough darlin' This love will be reality (ah ah)

How can you live girl 'Cause love for us was meant to be (well) Then you must be seein' Some other guy instead of me (ooh)

(That's why) You got me workin' day and night And I'll be workin' From sun up to midnight

You got me workin' workin' day and night (Hold on) You got me workin' workin' day and night (I'm so tired tired now) You got me workin' workin' day and night (Hold on) You got me workin' workin' day and night (Hoo, hoo, hoo)

You say that workin' is what a man's supposed to do But I say it ain't right if I can't give sweet love to you (well, ah)

How can you live girl 'Cause love for us was meant to be (well) Then you must be seein' (woo) Some other guy instead of me (ooh)

(That's why)

You got me workin' day and night (I don't understand it) Ànd I'll be workin' From sun up to midnight

You got me workin' workin' day and night (Hold on)

You got me workin' workin' day and night (I'm so tired tired now) You got me workin' workin' day and night

You got me workin' workin' day and night

You got me workin' workin' day and night (Girl) You got me workin' workin' day and night

(I'm so tired tired now) You got me workin' workin' day and night You got me workin' workin' day and night (How can I get to you ...)

(Ad-lib to fade)
