

The Jayhawks, Crowded in the wings

It's taken you so long
Where can you be?
I woulda laid my life down for you
Nothing seems real, nothing seems real
Now that you're gone
Have you seen the sisters blue-eyed curls of gold
Helen, no one there to be seen
The sun light looks down,
Stripped bear to the ground
Held by the leaves

Chorus:

Been crowded in the wings

Mostly I don't mind

Been crowded in the wings

Then it's you I find

Then it's you I find

Then it's you I find

Two hundred yards in front of the man

He could never see his way to another day

This time meant the same, cold, cold, cold

Cold once again

(Chorus)

You brought me to, the mother of mountains

You brought me to

And no one reads to you at night

And all your lies came to pass

Just something I said

Made you turn your life in

(Chorus)

(Chorus)

Been crowded in the wings

Been crowded in the wings

Been crowded in the wings

Been crowded in the wings
