

The Jayhawks, Let the last night be the longest

I walked the last mile home
In this heart was born a shame
Loving you no longer
No matter what I tried
The feeling shared tonite keeps coming back to mind
I'll find an old barroom,
Settle in for good,
Forget about the past close behind me
No matter what I tried
The feeling shared tonite keeps coming back to mind

Chorus:

Westbound train is leaving, darling cant you see?
Let the last night be the longest
In a lonesome memory

(Verse 1)

Chorus 2:

Sun up in the Midwest, darling cant you see?
Let the last night be the longest
in a lonesome memory

(Chorus 1)

(Verse 2)

(Chorus 2)

Let the last night be the longest
In a lonesome memory
