

# The Jayhawks, Nothing left to borrow

The ones you left behind are stuck in line  
You've never been deprived of a smile or a time

Chorus:

Didn't you feel so wise for a while  
Didn't you feel that your ship had arrived  
There was nothing left to borrow  
There was nothing left to borrow  
Well you follow where you've led  
Say you're using your head  
Still making the rounds  
With the fools and the clowns

(Chorus)

But you're still young with your eyes open wide  
Couldn't you stick around for the ride  
But your mama always said  
You gotta save your money

(Chorus)

There was nothing left to borrow  
But you're still young with your eyes open wide  
Couldn't you stick around for the ride  
Couldn't you stick around  
Couldn't you stick around
