

# The Jesus And Mary Chain, About You

I can see  
That you and me  
Live our lives in the pouring rain  
And the raindrops beat out of time to our refrain  
And you and me  
Will win you'll see  
People die in their living rooms  
But they do not need this God almighty gloom  
There's something warm about the rain  
There's something warm  
There's something warm  
There's something warm in everything  
I know there's something good  
About you about you  
I know there's something warm  
There's something warm  
Good about you
