

The Jet Set, Let me hit on you

What's up with your guys?
Who do you think you are
I need something more than just cheap pick up lines
That's not gonna make an impression on me
You gotta give me something more
Hey, hey, hey
Come on, ha ha
Whose there, whose there
Look at her
She's mighty fine, ain't she (yeah, yeah)
OK, here we go
Look at here
Watch me, watch me
Hey, could you look my way?
Cause you're a hot thing and you blow my mind away
I just gotta let you know
That you the custest little thing I've ever hit on
I got the chriss, I got the pearls
And I can get anything you ever dreamed of
So what you think about a ride with me?
So what you say, what you say?
Coco skin and a big old whip
That's the combination girls dream of
So why don't you wanna swing that booty here?
So we can get on down
And I can take you to town
I like your hair, I like your style
I like the way you swing that thing from left to right, girl
You're that chick for me to hit on
So what you say, what you say?
Hey guys, what you're thinking about?
You got one thing on your mind
We know what you really need
So don't be afraid to get dyst
So don't keep acting like tough guys
We need tenderness and love
Stop pretending and just be real
What you think about you and I?
On the country side, horse back
Would you like that?
Well, here's the fella who can offer that
I'll give you diamonds, give you pearls
I'll even take you on exclusive trips around the world, girl
All you gotta do is get with me
So what you say, what you say?
I don't understand why you trying to ice me
Look at me, you gotta like me
All the other chicks go crazy
Some of them even want to have my baby
Now here is you
With all your head high
Walking around just like a drive by
But there is one thing I gotta know
So what you say, what you say?
