

The Kelly Family, Another World

Everybody thought this was going to be one more freakshow
everybody thought this was going to be one more of those jokes
Its another world
its a wild world
Its another world now
its a wild world
My generations not going to see year two thousand fifteen
I live out at sea to save my life from the H. I. V.
Its another world
its a wild world
Its another world
its a wild world
No one knows whats going on
cause the world is on fire
the word is out, the people are down
and were on the run
is it justice form heaven or sent from hell
the world is on fire, babe
something is going on
and Im really scared
Its another world
its a wild world
Its another world
its a wild world
Everybody thought this was going to be one more freakshow
everybody thought this was going to be one more of those jokes
Rub our face into the dirt
till the fire is over
Ive been to the edge
and there I stood and looked down
Living in the world we never made but is it too late now
Something is going on and Im really scared
Its another world
its a wild world
Its another world
its a wild world 2x
Its another world
Everybody thought this was going to be one more freakshow 4x
