

The Kelly Family, First Time

Today for the first time
For the first time
You took my hand
Today for the first time
Touched a warm heart
What a lucky girl
Cause you opened your heart
And you gave it to me
So dont tell me that you dont love me
You opened your heart
And you gave it to me
So dont tell me that you dont need me
For me for me
Youre the one youre the world
Someone is anyone there
My body needs warmth
Its a mad mad world
Today for the first time
I heard my heart stop
As he flew away
Open your heart
And give it to me
And dont tell me that you dont love me
Open your heart
And give it to me
And dont tell me that you dont need me
Sometimes I just fall and break
Sometimes it just overflows
I cant take no more
I cant take no more no more
Open your heart
Tonight for the first time
All the stars shine
But youre the brightest one
My love
