

The Kelly Family, New world

There's a whole new world
I mean round the corner
Where men will take their hats
And children dance again (2x)
So follow me into a world
Of sunshine
A raise of life I'm looking through the skies
I'll push away with the could
It's a whole new world
I mean round the corner
Ladies at there back fance
And children sing again. (2x)
The time has come
To make a whole new world
I'm strong you see
And I have all my brothers
To help me through the storm
It's a whole new world
I mean round the corner
Men shake their deals again
And children laugh and play (2x)
We have the power
To make a whole new world
We'll play and work
Take care of each other
But strong we'll help the weak (2x)
