The Killers, Get Trashed

Sitting here on the bed Trying to clear my head But Brooke you just won't budge So I look back instead Why'd you go away? Useless when I say, hey Baby I'll be the best 'Cause I'm a jealous mess

So wash your hands from all this dirt And take my words for what they're worth Baby I'll be the best But you stand to protest

And my stomach has been so abused, Your confusion's got me so confused, But everything will be alright If I get trashed tonight
