

The Kinks, Announcement

"It has been rumored that a new People's Army has been formed by a certain 'Commander Black'. A few minor incidents have already been reported, and further unconfirmed reports suggest that this is a definite attempt to overthrow the present government which is led by Mr. Flash.

We would like to stress that these are only unconfirmed rumors, but we will of course bring you up-to-date news and information on these reports as they come in. Meanwhile we do urge the population not to panic and to remain calm during the crisis.

Please stay tuned to this station for further bulletins."
