

The Kooks, Beautiful World (feat. Milky Chance)

Don't you know I got all I need
Guaranteed to make you feel better
I see empty streets and blue blue skies
I'm climbing high I better cut the tether

Echo in the dark
Lightning in my heart
Welcome to the world
Echo in the dark
And lightning in my heart
Welcome to the world

It's such a fucked up world,
But I'm glad we're living in it
Such a beautiful world
I'm glad we're living in it
I'm glad we're living in it

I know it's crazy
Are we ever gonna shine
Don't know but maybe
there will be the time
this sudden moment
We make it better
It's only now
But it will last forever

Echo in the dark
Lightning in my heart
Welcome to the world
Echo in the dark
And lightning in my heart
Welcome to the world

It's such a fucked up world
But I'm glad we're living in it
Such a beautiful world
I'm glad we're living in it
I'm glad we're living in it

It's such a fucked up world
But I'm glad we're living in it
It's such a beautiful world
I'm glad we're living in it
I'm glad we're living in it
