

# The Lemonheads, Rule Of Three

The way it's supposed to go  
As if you didn't know  
Exactly how to feel  
When it looks just like a dolphin show

The way that most folks know  
This is how your life will go  
I never wonder why  
And I always get a decent lie

The way it's supposed to feel  
When you're finding out it's real  
Turning on a dime  
We'll prepared and right in time, right in time

The way it's supposed to be  
When you're climbing up a tree  
What is that you see?  
And don't forget the rule of three, rule of three  
Rule of three, rule of three, rule of three, rule of three  
Rule of three, rule of three. rule of three. rule of three
