The Lightning Seeds, Like You Do

You have to cut right through all the Pepsi lies And hold on tight, it's a stormy ride To get through to what you do. Like you do, from wheels that never turn And lessons never learned Searching for a space where dreams will never burn Through the twists and turns, it's a funny world

Are you the King of Cool with a secret sign Or the King of Fools in a pack of lies Get through to what you do Like you do, from keys that never wind A place without a time. Wishing on a star that's never gonna shine Through the twists and turns, it's a funny world.

Get through to what you do.

Like you do from wheels that never turn, lessons never learned Searching for a space where dreams will never burn, Through the twists and turns, it's a funny world.

Be everything you are, cherish what is true, Celebrate with those who need to be with you, Through the twists and turns, it's a funny world. It's a funny world It's a funny world Through the twists and turns, it's a funny world Through the twists and turns, it's a funny world
