

# The Lightning Seeds, Sugar Coated Iceberg

You know I can't stay home  
With all this time to kill  
You know I can't sit still tonight  
I've gotta make some noise  
I'm jumping up and down  
I've got to get out now  
I wanna shout out loud  
Oh you make me feel alright  
It's like the tippermost, toppermost high  
Oh it's you - you do  
Crack up your face and give us a smile  
Because tonight I just wanna go wild  
I've got a million thoughts and when I've thought them all  
I'll find a million more tonight  
And when I'm feeling sad  
I know it's such a drag  
And then I get so mad  
And then I feel so bad  
Oh you make me feel alright  
It's like the tippermost, toppermost high  
Oh it's you - you do  
Ready or not  
Here we go till we drop  
Don't be square  
Fix your face and grow your hair  
[bridge]  
Oh you make me feel alright  
It's like the tippermost, toppermost high  
Cos it's you, you, you  
Ready or not  
Here we go till we drop  
Don't be square  
Fix your face and grow your hair  
Here, now, anywhere
