

The Luka State, Two Worlds Apart

Two worlds apart
I'm not ready for you to
Stand in front of me
Go and break my heart
I'm not ready for your company
So say if you wanna go
Do you wanna get out
Out of this town
And say if you wanna go
Do you wanna get out out of this town
Maybe I'm talking to myself

Falling. Sinking.
I'm lost for words
I remember when you
Changed your mind
At the time when you said
We're two worlds apart

Two worlds apart
Caught in the warning signs
That are there in front of me
We fall apart
Crash and burn and the rest
Just turns into memories
Say if you wanna go
Do you wanna get out
Out of this town
And say if you wanna go
Do you wanna get out
Out of this town

Falling. Sinking.
I'm lost for words
I remember when you
Changed your mind
At the time when you said
We're two worlds apart

Maybe I'm a little worse for wear
Wont you get me out of here
Maybe I'm a little lost for words
I guess we're two worlds apart
Worlds apart
We're two worlds apart
