

The Magic Numbers, Don't Give Up The Fight

She's the kinda girl who looks like she had it all
Then everything started to fall
She turned and she said well
I look in your eyes but honey I can see nothing at all
And everybody's starting to know
She turned and she said to me

Baby baby please
Don't give up the fight
I saw you dance tonight

Baby baby please
Don't give up the fight
I saw you dance tonight

Well she's the kinda girl who looks like she had it all
Then everything started to fall
She turned and she said well
Nothing you do can ever be seen to turn me on
And everybody's starting to know
Well she turned and she looked and she said

(Baby baby please
Don't give up the fight
I saw you dance tonight) x4
