

# The Magic Numbers, This Is A Song

I don't wanna tell her  
No don't want to tell her  
I lie awake in the dark  
Lost in the beat of my heart  
Well baby look over your shoulder  
you're not alone in this life

I don't wanna tell her  
No don't want to tell her  
That I've been thinking of you  
Lost in the things that you do  
Maybe its over  
but over is not a word that you know

And if it hurts me baby you know why  
I go it alone  
Hurt me baby if you like  
It's already gone

I don't wanna tell her  
No don't want to tell her  
I've been calling your name  
Each time it feels its in vain  
Maybe its over  
but over is not a word that you know

I don't wanna tell her  
No don't want to tell her  
I've been falling apart  
Broke every rule from the start  
Baby look over your shoulder  
you're not alone

And hurts me baby when you try  
to go it alone  
Hurt me baby if you like  
you already gone

This is a song  
and these are the words

I don't wanna hear it  
Don't wanna hear it

This is a song  
and these are the words

I don't wanna tell her  
No don't want to tell her  
I lie awake in the dark  
Lost in the beat of my heart  
Well baby look over your shoulder  
you're not alone in this love
