

The Methadones, Annie

Annie - how long has life been beating you down?

Annie - turned into a girl looking for a way out

Annie - wanted to be loved like anybody else

Annie - keeps slipping away

I wish there were something to say to Annie

Kind words or praise just a little too late for

Annie - now those days are gone

Annie - always looked like she was having fun

Annie - Had so many problems that she kept from everyone

What she needed more than anything else is what she never had

Annie - I just don't understand
