

The Methadones, Bored Of Television

yesterday i had a job
but then andy and a two bobs
said they wanted to speak to me the department was low in productivity
we have some real bad news we've terminated your employment
i got the feeling it was to their enjoyment
i laughed in spite cleanings out my desk
but now i sit on the couch laid of like the rest
and i'm bored of television but i'm always keeping it on
climbing up and down the walls all day and all night long
i just want to find a place where i belong
i'm bored of television
but i'm always keeping it on
reality shows, tabloid TV
USA obsession for celebrities
i start to get feel a visceral reaction
to all these weapons of mass distraction
countless applications and resumes
the classified section withers away
raised to believe in the american dream
but look what's being done to you and me
and i'm bored of television but i'm always keeping it on
climbing up and down the walls all day and all night long
i just want to find a place where i belong
i'm bored of television
but i'm always keeping it on
keeping it on
i'm bored of television but i'm always keeping it on
i'm climbing up and down the walls all day and all night long
it's been 98 days since every things gone wrong
i'm bored of television but i'm always keeping it on
