

The Methadones, Revitalized

You could understand that we didn't see eye to eye
But when you left me
It really hit me
You're gone
I'm revitalized
You knew how to push all my buttons
Shrink me down to your size
I know I'd rather be lonely than have you
I'm revitalized
I feel better than I have in quite some time
I don't feel bitter anymore and there's no more lies
I'm revitalized
