

# The Moffatts, A Little Something

There's a whole lotta love inside  
This little bitty heart of mine  
And if you wanna take it a little at a time  
That'll be just fine  
You've put a little light in my life  
That nobody shines above  
Yeah, you got a little somethin' I think I need a whole lot of

Yeah, baby, you got a little somethin' I think I need a whole lot of  
If we take a little time  
I can show you a whole lotta love  
We gotta little moonlight tonight  
And there's a whole lotta stars above  
And you got a little something I think I need a whole lot of

I've searched this big world over  
For that special little somethin' you got  
I can't figure out what's so different about you  
But I like it a lot  
I'm satisfied, yeah, I'll be satisfied  
Forever, if you'll be my love  
Yeah, baby, you got a little some thing I think I need a whole lot of

Yeah, baby, you got a little somethin' I think I need a whole lot of  
If we take a little time  
I can show you a whole lotta love  
We gotta little moonlight tonight  
And there's a whole lotta stars above  
And you got a little something I think I need a whole lot of
