

The Moffatts, Who Do You Love

Here we are
you'd tell me i'm the only one
that makes you feel love again
there you go
i see you're watching him
when you don't think i know
should i let you go?

So who's it gonna be?

is it him or me?

Reff:

Who do you love?

who do you need?

you're messing up my mind

wasting all my time

who do you love?

what do you feel?

stop playing with my heart

you're tearing me apart

am i the one who can make you fly up above?

is it me who can take you higher than you're dreaming of?

now who do you love?

turn around

do you really think you'd play me like a fool for you

then i realize

when you touch me it's like nothing i have known

could i let you go?
