

# The Moody Blues, Forever Now

If we could live forever  
Where would our dreams lead us to  
Living in a world of ever  
Changing expectation

If it could be  
If it could be  
It would be forever now

If we could be here forever  
Where in this world would heaven be  
As we race across the universe  
In search of confirmation

Why can't it be  
Why can't it be  
Why can't it be forever now

There's no way out  
There is no return  
There's no way back  
There's no way to learn  
The final act  
The curtain falls  
On the stage  
On the stage

Standing at the crossroads  
Waiting for the new millennium

For if it could be  
If it could be  
It would be forever now

If we could live forever  
Where would our dreams lead us to  
Living in a children's world  
Of simple fascination

If it could be, If it could be  
It would be forever now

If it could be, If it could be  
It would be forever now

For if it could be  
If it could be  
It would be forever now

If it could be, If it could be  
It would be forever now
