

The Moody Blues, Please Think About It

There in your eyes I see
That you want to be free
There by your side I'll be
If you still want me.

Please think about it.
I need your love
I'm no good without it.
Please think about it.
Give me your love
I can't live without it.

Oh no
Never leave my side
Baby please decide
I'm in love with you
I hope you want me too.
Don't go
Say there's nothing wrong
Stay where you belong
I'll be good to you
That's all I want to do

Please think about it
I need your love
I'm no good without it.
Please think about it
Give me your love
I can't live without it.

Oh no
Never leave my side
Baby please decide
I'm in love with you
I hope you want me too
Don't go
Say there's nothing wrong
Stay where you belong
I'll be good to you
That's all I want to do.

So if you have to go
I won't stand in your way
But if you decide to stay
I will be your guy

Please think about it
I need your love
I'm no good without it.
Please think about it
Give me your love
I can't live without it.

Oh no
Don't go.
