

The Moody Blues, Talkin' Talkin'

Talking, talking
It doesn't really matter if you know my name
It doesn't really matter
If you see things the same as I do

It doesn't even matter if I'm tired and tense
It doesn't even matter
If I'm still making sense over you

I'm just talking, talking
Talkin, talking
'Cause I'm only talking, talking
Talking, talking

It doesn't matter what the people all around you say
Be careful how you listen
They don't know you the way
That I do

And if you wanna talk about it baby that's alright
It's better if I say it
Than to sit down and write it to you
I'm just talking, talking
Talkin, talking
'Cause I'm only talking, talking

It can be that you're here with me
When I'm standing out on my own
I can listen to the words of love that you gave
When we were alone

It doesn't matter if you want to rock and roll all night
I know you're gonna be there when the Feeling is right
The feeling is right
The feeling is right
I'm just talking, talking
Talkin, talking
I'm just talking, talking
Talkin, talking
You know I'm just
Talking, talking, talking, talking
