The Moody Blues, Want To Be With You

When I think of all the things that we've been through And all the things we've yet to do I, I start to realise Without you by my side The world is such a lonely place Want to be with you

I remember all the heartaches we have known The angry nights when we were lonely The jealousy and pain Can we remain the same? The world will have to hold its breath Want to be with you

I don't need a reason
I don't need to understand
I just want to be
Want to be with you

Only want your love
Only want you by my side
Only want to be
Want to be with you

And when I look back down that road I see the turnings that we both made The choice we had to make The promises we break Are nothing more than memories Want to be with you

Ahhh, ahhh, ahhh, ahhh The jealousy and pain Can we remain the same? The world will have to hold its breath Want to be with you

I don't need a reason I don't need to understand I just want to be Want to be with you

Only want your love Only want you by my side Only want to be Want to be with you
