

# The Move, Sunshine Help Me (Live)

Hold me tight the time is right  
Crazy dreams and mind-blowing schemes will get you  
Yeah

People talking bad to her  
Sitting on the block without any love  
Somewhere

It's time to let your mind play again  
It's your heart just let mind play again

Chorus

Sunshine help me  
Sunshine help me

Help me take the strain away

Sunshine help me  
Sunshine help me  
Help me take the strain away

Is it true that I been wrong about the things  
You always thought were innocent  
People always going round putting me down

It's time to let your mind play again  
Its your heart let your mind take it

Chorus
