The Muffs, Freak Out

About myself-what do you wanna know Am I wrong beneath this stupid little song

I freak out anytime that you freak out every time I have attitude Anytime and I think I wanna die

I don't care, what you think about me Go to hell I'm wanting you to know I tell the truth

But something inside me freaks out anytime that I think of you anytime and I think I'm gonna die

I don't cry every time that I see you. I'll whine and I'll write another tune

(solo) alright

go to hell I'm wanting you to know I tell the truth but something inside me freaks out every time that I think of you anytime and I think I wanna die oh I freak out anytime that you freak out every time I have attitude anytime and I think I wanna die
