The Music, Fire

yeah I'm sensible I want peace and I believe it's still inside of me far from here they speak a thousand tales of what we lost into an open fire I think it's time for you to look around and see your past is like broken glass

where are the feelings?
where are the feelings?
a false empire of burning fire
a burning fire is what you are
a burning fire gonna leave a scar
a burning fire is what you are
a burning fire gonna leave a scar

I've had enough I'm gonna hide no more now I've spoke I'm gonna speak some more politics are getting in the way people telling me what I should say I think it's time for you to meet the boys we'll cut through you like silence cuts through noise

where are the leaders?
where are the leaders?
a false empire of burning fire
a burning fire is what you are
a burning fire gonna leave a scar
a burning fire is what you are
a burning fire gonna leave a scar

yeah I'm not inspired
