

# The Music, So Low

I was thinking about my situation  
Like I know you do the same  
But now the sun is rising and i feel like smiling  
Won't you help me once again

We all go through this  
Got to make it fit  
I know you feel the same as me  
Did it fit this way  
When you see my face  
Won't you help me babe  
So low, so low, I'm low  
Low, so low, so low, and low

I see that things are changing  
I'm just sitting thinking about my life and how it changed  
But now the sun is rising makes me feel like smiling  
Won't you help me once again

We all go through this  
Got to make it fit  
Won't you help me babe  
So low, so low, I'm low  
Low, so low, so low, and low

Did it fit this way  
When you see my face  
Won't you help me babe  
So low, so low, so low, and low
