

The Naked Brothers Band, I feel alone

1 2 3

Sometimes we laugh
To keep from crying
Sometimes we smile
To keep from frowning
Sometimes we hate
To keep from loving
Sometimes we hide
So we can be found
You don't know and I don't care
What is right and what is fair
That won't get you anywhere
And I find it's real
I feel alone
Walking Down the street
I feel alone
With the people I meet
I feel alone
With all my friends
I feel alone
Till the end
I feel alone
Sometimes we lie
to keep from feeling
sometimes we hurt
to keep from healing
sometimes we walk
to keep from sitting
sometimes we dance
to keep from sleeping
And i've done some feelings wrong
loneliness is my home
loneliness is my and i find it's real
I feel alone
Walking Down the street
I feel alone
With the people I meet
I feel alone
With all my friends
I feel alone
Till the end
And i sit all alone again
lookin out at the gray night sky
theres No one to hear
But a car driving by
I look at the children
The good are so hard to find
I sit in my room
And i play my piano
I feel alone
Walking Down the street
I feel alone
With the people I meet
I feel alone
With all my friends
I feel alone
Till the end
i feel alone
