

# The National, Your Mind Is Not Your Friend (feat.

Your imagination  
Is in an awful place  
Don't believe in manifestation  
Your heart'll break

Don't you understand?  
Your mind is not your friend again  
It takes you by the hand  
And leaves you nowhere

You feel it in your nerves  
It's chokin' out the sun  
You try in vain to be persuaded  
That it's nothin'

Don't you understand?  
Your mind is not your friend again  
It takes you by the hand  
And leaves you nowhere  
You are like a child  
You're gonna flip your lid again  
Don't you understand?  
Your mind is not your friend

You inherited a fortune  
From your mother's side  
Your sister didn't get it at all  
She survived  
Tranquilize the oceans  
Between the poles  
You're crawling under rocks  
And climbing into holes

Don't you understand?  
Your mind is not your friend again  
It takes you by the hand  
And leaves you nowhere  
You are like a child  
You're gonna flip your lid again  
Don't you understand?  
Your mind is not your friend

Your mind is not your friend  
Your mind is not your friend  
Your mind is not your friend (Your friend)  
Your mind is not your friend

Don't you understand?  
Your mind is not your friend again  
It takes you by the hand  
And leaves you nowhere  
You are like a child  
You're gonna flip your lid again  
Don't you understand?  
Your mind is not your friend
